

APPENDIX E-054 P

ITEM MANAGEMENT CODING HISTORY FILE INTERROGATION DOCUMENT

1. PURPOSE

a. This procedure is applicable to chapter 46 and describes instructions for preparing an Item Management Coding History File Interrogation Document, DIC YC9, appendix B-54, for a printout of the IMC documents recorded against any NSN in the IMC History File. The response will be received in the format of appendix F-59, Item Management Coding Interrogation Replies.

b. Interrogations containing invalid data will be output in the format of appendix F-92, Item Management Coding History Interrogation Edit Errors List.

2. APPENDIX USED IN THIS PROCESS

Appendix B-54, Item Management Coding History File Interrogation Document.

3. RESPONSIBLE ORGANIZATIONAL ELEMENT

The MSO, DSO, and any other individuals who need to know this information, are responsible for the completion of the procedures described by this appendix.

4. PROCEDURES/INSTRUCTIONS

Whenever a coding conflict has been created, Classification Reason Code QP (refer to appendix A-76), the IMC History File must be interrogated. Anyone who needs to know, for any reason, what IMC documents have been recorded against an NSN in the IMC History File, will prepare an interrogation document in accordance with appendix B-54. The sequence numbers in pos. 9-11 are used to determine the order in which the preparer wishes to receive his replies when more than one interrogation request is involved. This document will cause a printout, in the format of appendix F-59, of all IMC documents recorded against an NSN since the beginning of such record keeping. (Unmatched responses will be indicated by asterisk(s).) Documents containing invalid data will printout in the format of appendix F-92.

5. FLOWCHART

Flowchart not required.
